

Advanced Water Company Ltd Environmental Statement

Advanced Water Company Ltd believes it has an important duty to ensure good environmental performance in all its business operations and to provide the necessary organisation, commitment and training to fulfil this obligation. The senior management team firmly believes in, and is committed to monitoring and improving environmental performance, pollution prevention and environmental protection.

The key points of its strategy to achieve this are:

- Incorporating environmental responsibility into all business operations by planning environmental protection, reviewing and developing policy, by setting targets and reviewing and auditing performance.
- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling.
- Utilising the best available techniques not entailing excessive costs to comply with the requirements of existing and future legislation, and encouraging those working with the company, both internally and externally, to meet the same standards.
- Pursuing continuous improvement in environmental performance, where reasonably practicable, by setting objectives and targets, especially in addressing the areas of resource use, by reducing energy and water consumption, increasing reuse and recycling and improving solid and liquid waste management methods.
- Advanced Water Company Ltd will promote its objectives and will respond positively to enquiries and suggestions from both inside and outside the company.

All employees have responsibilities for policy implementation by participating and contributing to its success through their actions and suggestions.
